Raycia Maria Frances R. Navera

Summary

Recent college graduate with a Bachelor of Science degree in Computer Engineering with Specialization in Software Engineering. Skilled in designing and developing responsive web-based applications using modern technologies. Seeking an entry-level role to gain technical proficiency, develop professional skills within the industry, and contribute solutions in an innovative environment.

Experience

Web Developer Intern   March 2022 - June 2022

MTL Holdings Inc. | Alabang Muntinlupa City, Philippines

• Designed and developed a prototype website for the MTL group of companies using HTML, CSS, JS, and Materialize CSS.

Relevant Projects

Explora   https://explora-ruddy.vercel.app/

• Built a travel booking website for a pretend agency that offers tours for specific destination in the Philippines. Built with React JS, Firebase, and Tailwind CSS.

• Integrated user authentication with Google Firebase. Users could choose tour packages and leave reviews.

Chapters   https://chapters-tawny.vercel.app/

• Built a journal web application with authentication using React JS, Firebase, Tailwind CSS, Redux Toolkit, and Axios.

CanDiY   https://candiy-nu.vercel.app/

• Built a candy subscription box website UI that showcases details regarding the product, subscription package, and plan prices together with customer testimonials. Built with HTML, CSS, JS, Bootstrap 5, SASS, Webpack, and Babel.

Education

De La Salle University - Dasmarinas, Philippines   2018 - 2022

Bachelor of Science in Computer Engineering with Specialization in Software Engineering

• Undergraduate Thesis: SIM Card Registration System with Reporting Feature
